R.C. Dutt Road, Vadodara-07
xethani@rediffmail.com

Dear Friends,

One of the most breath taking and satisfying subjects in ophthalmology is strabismus where the immediate results give immense satisfaction to the surgeon. Together with this, treating children is another high. Children are the future, to be able to make difference in their life directly or indirectly is a different level of contentment available to very few.

To constantly update oneself we need our peers and seniors, our colleagues to share their ideas, to talk about how same things can be done differently we need meetings and platforms.

This annual meeting has various national and international pediatric ophthalmologists of repute to discuss and share their ideas. The meeting has been arranged at one of the best properties that is the King’s palace at the Laxmi Vilas Palace.

“There are more than one way to orthotropia”
