SYNCHRONY - 2022

9th Midterm Conference of Strabismus and Pediatric Ophthalmology Society of India (SPOSI) (Registered as SSI)

In Collaboration with OSN of Ophthalmological Society, Nagpur

Nagpur is centrally located in India and is well-connected with all major cities of the country by air, railway and road. The month of June brings rain and a welcome relief from the sweltering heat. Being surrounded by many lakes and Reserve forests, the city is one of the greenest cities and has a well-developed public transport system like Metro services, city buses and app-based taxis (Uber and Ola). The conference venue is in the heart of the city and can be easily reached.

Your accommodation (suggested Hotels)
